

bāsiq
desk system

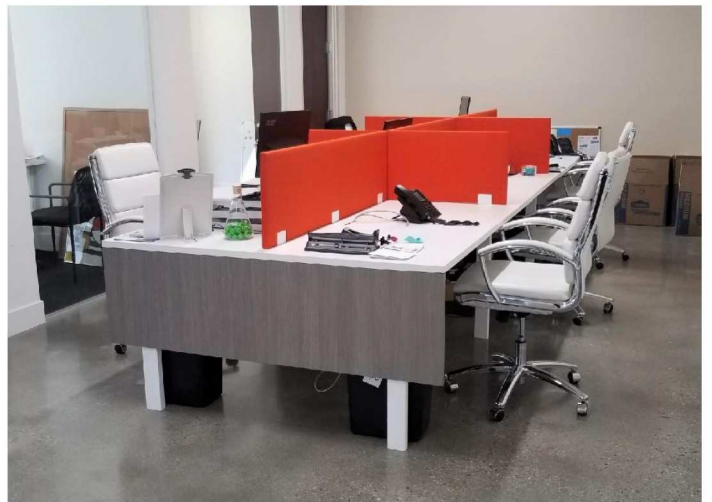

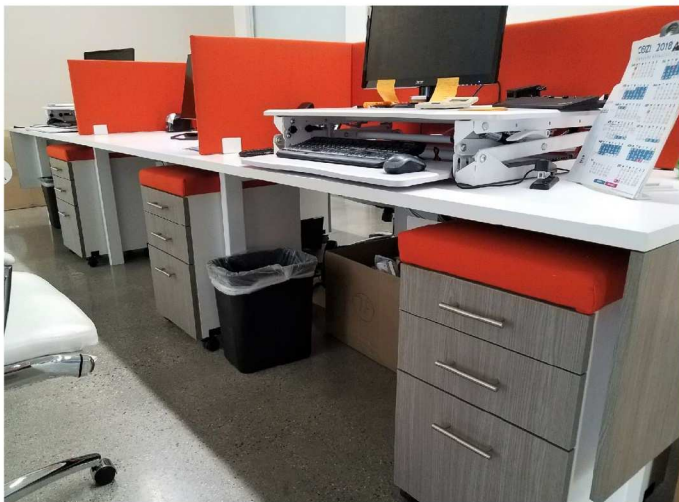

R1D

A moment of clarity after months of redefining the same old thing and in that moment the basiq desk was born. With one eye keenly focused on affordability and the other on simplicity of design and style, the expandable basiq desk system becomes the singular answer to the age-old questions 'How fast and how cheap?'

Included in the price of every desk comes cable management and our proprietary R1Duplex+ 20 Amp Power Distribution Unit, each with 4 Grounded Receptacles, two 4.8 Amp High Speed USB Chargers and two RJ45 Keystones, delivering ample power and utility to every desk.

Available in an array of colors, finishes and sizes there is nothing standard about the basiq desk system because your order is made to order and you can have it any way you want it; rare or medium but always well done.

Simple, functional, solves problems without creating new ones
