

bāsiq
desk system

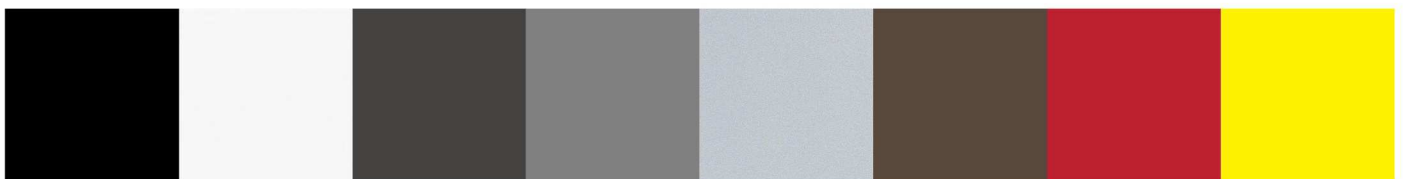

Build it your way

The basiq desk system is a deft and simple composition of Leg-Sets, Crossmembers, Tops and End Panels of varying dimensions and finishes arranged in four-part harmony to easily offer you exceptional value for every dollar spent.

As easy as one, two, three, a 4 Leg Start Desk-Set begins the system with as many daisy-chained 2 Leg Mid-Sets as you want, finishing with an End Leg-Set ready to receive a full or half End Panel or none at all. Next, add Power Distribution Units and Cable Trays (included in the price) to power up each desk and manage those unruly wires; connect the Power 'Bricks' to each other with our Proprietary Whips and finally connect the first Whip to the Infrastructure with our 4 Wire, 2 Circuit Quick Disconnect Receptacle (installed by a licensed electrician) and you're as good to go as go can get. All you need to do is choose Frame Size, Color, Top and End Panel Finish and you're home free (well, almost free).

To get started, just call our Toll-Free number, 888-882-1225 and we'll be happy to quote your project no matter how small or large and thank you for considering R1D.
